

Franklin Fueling Systems

Fueling Innovative Solutions

Date: August 30, 2007

Bulletin No.: B0807-03

To: Global Distribution

From: Jay Walsh

Subject: Healy Product Shipments

As a continuing service to our customers, effective September 4, 2007, FFS will begin shipping all Healy products from the Madison, WI USA facility instead of from Hudson, NH USA. The Hudson, NH facility will continue manufacturing and supplying Healy components to be stocked and delivered from the Madison, WI facility.

We are taking this step to enable one shipment on one invoice for Healy, FE Petro, APT, EBW, and Phil-Tite branded products. Further, Healy can now be included in the minimum net invoice values to qualify for free freight within the USA.

We hope you find this step leads to another valuable addition to your partnership with FFS. Please contact our Customer Service group with any questions.

Sincerely,

Jay Walsh
Vice President, Marketing
