

Advantages

- E-mails or text messages are immediately sent upon receipt of an alarm notification from the console to help lower service costs, provide less downtime and help have a higher throughput.
- Automatically and reliably retrieves fuel management and compliance data from all sites to eliminate reporting errors, lost printouts and keep all data in one place. This frees up site personnel for other tasks.
- Hardware and software is maintained by FFS so there is no need to purchase, install or maintain a server to monitor your sites.
- Secure access to site data from anywhere so you can view data with immediate accuracy from your home, office or the road.
- Daily usage and delivery forecast tools help to accurately schedule fuel drops and eliminate running out.
- A wide variety of reports and date range options help generate various compliance, alarm and inventory reports.
- Centralized, secure compliance information makes all your sites accessible in minutes.

Get Connected AnyWare™ Remote Polling Service

Get Connected AnyWare™ is a remote polling service from Franklin Fueling Systems that allows customers internet access to their sites from any web browser. Get Connected AnyWare™ acts as an application service provider of our powerful System Sentinel AnyWare™ software, allowing customers access to the application running on our servers at the Get Connected Data Center. Through high speed Ethernet or modem dial-up communications, Get Connected AnyWare™ can communicate without ATGs and retrieve important fuel management, alarm and compliance data. Site can be accessed at www.gcanyware.com. Log in using the user demo and password demo.

Polling Options	
One poll	AM, all history poll
Two polls	PM, alarms, inventory and latest delivery
Three polls	Late PM, alarms, inventory and latest delivery
On-demand	Customer directed polling any time

Limited Time Incentive

Customers who use all Franklin Fueling System products at a new site will receive two years of Get Connected AnyWare™ service for that site at no cost. Customers who replace a competitive ATG system with an INCON TS-5 Series console will receive two years of the Get Connected AnyWare™ service for that site at no cost.

Polling Service Details

Get Connected AnyWare™ hosts the server, the application (System Sentinel AnyWare™) and provides internet access to it. Online training and phone/e-mail support are available. Other details include:

- Ability to browse to the Get Connected AnyWare™ Web site from home, office, on the road or anywhere you have internet access.
- Customers can monitor their own sites and respond to alarms, compliance issues and perform fuel management.
- Rules can be created to send out e-mails and text messages on alarms and other events.
- All sites will be polled at least once daily and more frequent polling options are available.
- Get Connected AnyWare™ consists of an auto-renewing six month agreement that can be discontinued at any time with a 30-day notice.

Receiving for High Speed Connections

Customers with an Ethernet connection can program their ATGs to contact Get Connected *AnyWare*™ on various alarms or events. Get Connected *AnyWare*™ will receive these transmissions and poll the site for new data. The new data will be applied to the current rules and e-mails will be generated if applicable.

Support While Getting Connected

Franklin Fueling Systems will provide support in bringing online and troubleshooting communication with sites using Franklin Fueling Systems communications equipment. This includes the TS-EPS Ethernet port server, the TS-MLS multi-line phone switch and the TS-FM2 internal modem.

Site Survey

If requested, Franklin Fueling Systems will recommend a distributor or service company in the customer's area to perform site surveys of the sites they wish to bring online.

More Functions

Get Connected *AnyWare*™ will support connectivity to the following ATGs:

- INCON T5 Series (TS-5, TS-550, TS-5000, TS-EMS).
- INCON TS-1001 Series (TS-1001, TS-2001, TS-504, TS-508, TS-750).
- EBW Autostik (Bulkstik and Autostik Jr. version 3.905 or greater).
- Veeder-Root TLS-300, 350 and Gilbarco EMC Automatic Tank Gauges.

Connection can be established via Ethernet or internal modem. The Get Connected *AnyWare*™ data center will store two years worth of data for each site and allow you to export your data. Data older than two years can be accessed with the data archive service.
